Patient Equipment

- Use dedicated or disposable medical equipment
- All non-dedicated, non-disposable medical equipment should be cleaned and disinfected according to manufacturer’s instructions for use. **It must be cleaned prior to use on another patient.**

Environmental Cleaning

- Routine cleaning and disinfection is appropriate for COVID-19
- Oxivir and Dispatch (bleach) are the approved hospital grade disinfectants. EVS may use Clorox germicidal wipes.
- **1 minute dwell time.**
- Management of laundry, food service utensils, and waste should be performed according to routine procedures.
