

# TEST UPDATE

## Genomic Testing Available to Outreach UVMHC

Effective 10/23/2024, UVMHC's Gene Panel Solid Tumor and our Gene Panel Heme genomic tests will be available for interfaced orders in Atlas and Mayo Access. Our Genomic Medicine department has recently implemented testing on the Illumina NextSeq platform utilizing their TruSight Oncology 500 high throughput technology, and we have redefined those tests to improve access for community practitioners and hospital clients. See below for updated test build information.

NOTE: These tests are not currently NYS certified.
