

# TEST UPDATE

## Mayo Antimullerian Hormone, S to Replace ReproSource Antimullerian Hormone Testing UVMHC

Effective 11/18/24, in consultation with ordering practitioners, UVMHC is standardizing Antimullerian Hormone testing performed at Mayo Clinic Laboratories. (Mayo Test ID AMH1, Antimullerian Hormone, S - LAB15552) We will no longer offer Antimullerian Hormone (AMH) testing sent to ReproSource. Standardizing on a single performing lab allows us to offer consistency in reporting for our patients, faster turnaround times, interfaced orders and results, and the Mayo test doesn't require an additional requisition be filled out currently associated with the ReproSource order.

### Test Build Information:

| Orderable to be Discontinued               | Epic Code | Atlas Code | Mayo Access ID | Order LOINC | CPT Code(s) |
|--------------------------------------------|-----------|------------|----------------|-------------|-------------|
| Antimullerian Hormone (AMH)<br>ReproSource | LAB3314   | AMHREP     | N/A            | N/A         | 82166       |

| Orderable                       | Epic Code   | Atlas Code  | Mayo Test ID | Order LOINC  | CPT Code(s) |
|---------------------------------|-------------|-------------|--------------|--------------|-------------|
| Antimullerian Hormone (AMH), S. | LAB15552    | LAB15552    | AMH1         | 83104-0      | 82166       |
| Result Component(s):            | Epic Code   | Atlas Code  | Mayo Test ID | Result LOINC | Notes       |
| Antimullerian Hormone (AMH), S. | 12301013793 | 12301013793 | AMH1         | 83104-0      |             |
| Specimen Requirements:          |             |             |              |              |             |
| Container                       | Specimen    | Temperature | Collect Vol  | Submit Vol   | Stability   |
| SST (preferred)                 | Serum       | Refrigerate | 2 mL         | 1 mL         | 7 days      |
| Collection Information:         |             |             |              |              |             |
| Red Top tube is acceptable.     |             |             |              |              |             |
