RE: Program #2928

Previous Accreditation Status: 8 Years
Most Recent Site Visit: 01/2020

Dear Ms. LeBeau:

After review of the requested interim report, the continuing accreditation status of the certificate radiography program sponsored by Champlain Valley Physicians Hospital Medical Center was considered at the March 19, 2024 meeting of the Joint Review Committee on Education in Radiologic Technology (JRCERT). The JRCERT is the only agency recognized by the United States Department of Education (USDE) and the Council for Higher Education Accreditation (CHEA) for the accreditation of traditional and distance delivery educational programs in radiography, radiation therapy, magnetic resonance, and medical dosimetry. Specialized accreditation awarded by the JRCERT offers institutions significant value by providing peer evaluation and by assuring the public of quality professional education in the radiologic sciences. The program was evaluated according to the **Standards for an Accredited Educational Program in Radiography (2021)**. The program documents compliance with all relevant Standards; therefore, the JRCERT awards:

MAINTENANCE OF ACCREDITATION FOR A PERIOD OF EIGHT YEARS.

The next site visit is tentatively scheduled for the First Quarter of 2028.

The program is advised to exclude pregnancy related questions from the program's magnetic resonance (MR) screening form, as disclosure of pregnancy by the student must be voluntary.

The program is also advised to maintain annual documentation that students, clinical preceptors, and clinical staff are apprised of supervision policies.

The program is further advised that consistent with JRCERT Policy 11.600, the JRCERT reserves the right to conduct unannounced site visits of accredited programs. The sponsoring institution would be responsible for the expenses of any on-site evaluation.
